Congratulations. You've discovered how the speed of the internet works. Not everyone is prepping here. Secret discussions are made on unpopular mediums. I think we want antifa to show, to be honest.

From what little I have seen they are organized and willing to square off with Antifa. I think those going to DC need an organized effort to help keep them safe but also to keep things from getting out of hand. Proud Boys could potentially draw conflict away from the crowds and other groups of people Antifa may attempt to attack.

I laugh at the bedbug threat. I remember when I was a kid the rumor was if you attended a protest "someone" was going to be taking photos and find you in the yearbook and get you thrown out of school. Never happened. Only worked on kids who weren't really interested in participating.

I realize that these discussions are taking place elsewhere specifically to avoid surveillance, and you have no way to know me from Adam...

But I'm trying to figure out how to join up with an organized, competently led group.

I'm willing to do something to establish my lack of glow, but I really don't know what that would be...

I've created this account and a protonmail account specifically to conduct this search...

Any pointers? How can I establish trust with such a group? How can I find them?

I've already sent a message to my state Proud Boys group, but haven't heard back.

I realize that the answer is probably that I should have done this months ago...

I've never been much of a "joiner", but this seems like a time to make an exception.

Simple. Three Trump factions are going to DC.

1. Theres the Veteran/Minecraft Enthusiast faction. The smallest and most dangerous faction.
2. the "its a really big protest" faction who believe its bot gonna get spicy but it needs to be serious. These guys are slightly naive bc they don't want faction 1 to be right but they know things are bad.
3. the,"Trump has it in the big we are here to party" faction these folks are bringing the wife, kids maybe a portable grill... they are in "I'm in danger" meme territory. This is the source of most of the naivety

And ofc unofficial group 4) the glowies that REALLY really want group 1 to fuck up in small, manageable, easily arrest-able ways.

Group 3 in massive numbers provides camouflage for groups 1 and 2, and they also provide an already in place reserve force that can *join* groups 2 or even 1 if things start going south.

The minecraft enthusiasts know that their numbers are necessarily small at this point, but that they are just the seed.

You also need to be aware that they are necessary for perception management... the commies are going to want to target the weak which does 2 things. Hides /Op/erators since the enemies attention is focused away from the threat and provides necessary proof that Pantifa/BurnLootMurder/communists are the problem.

If the link is posted publically here, how can it be private and secure?

It doesn't have to be public. Code could be written so you could only see the link if you have contributed to the community or have been apart of it for so long.

How do the hotels know who the Pro-Trump people are anyway? Not like there are border guards there asking purpose of visit anyway.

Just checked and my reservation is still valid on the hotel app and yeah they have no way of knowing what I'll actually be there for, if asked just say business (technically you are there on business) or play just play dumb tourist who didn't know there was an event going on that week and thought you were avoiding the weekend crowds.

Anyhow given how the room rates have more than doubled since last week I'd say that all the regular hotel chains are perfectly happy to take our money.

Gosh. Shills and Commies lurk here too?! On a Public discussion board?! Who'd have imagined they'd see public posts on a public website and 'try' to use the information and attempt to plot things to thwart what is proposed!

I used to think it was wild that these guys thought they were the good guys, but after chatting with three over the past few months, I understand they know full well they are the evils ones. They simply don't give a fuck. They want to destroy the world. They hate normality and hard work and loving your family and taking care of yourself. This is an evil worth fighting. I hope to see many of you in DC. I hope shit pops off. I'll be in an RV and ready for most anything.

Nazis and an army of snitches

Goose stepping around destroying the land our forefathers conquered.

This world is wicked.

LEAD AND DO WHAT GOD TELLS YOU. SPIES WILL ALWAYS EXIST.

Please guys think like winners and conquerors not whiners and cucks.

Retake your life back.

Why would anyone be worried about Antifa they're a bunch of soy pussies! I hope they show up in large numbers! As far as lodgings stay 40 minutes away on Baltimore outskirts! Not too hard to figure out, you don't need to stay in downtown DC

dont make reservations in DC anyway, thats retarded.

King's Army loses in a numbers game if they're trying to block the roads in. maybe they need to be the first to answer to the people anyway. so everyone can fucking hear us.

The fact that this behavior is condoned is insane. From free nation to Cucktopia. Where dildos are tax deductible and conservatives aren't allowed in hotels. I'm just assuming that first part will become a reality if this keeps up.

Yeah this started with AirBnB canceling bookings during the Million Maga March because some people mentioned they were going on their Twitter with their real name. Seriously people, there is value in being incognito until you've arrived at the destination, only a few people who know me personally know that I'm going and the rest won't find out until they see me posting videos from on location.

They are vastly outnumbered. Joe got 15million actual legal votes, I'm certain of it. GEOTUS may have broken 100 million. We will never know because the water is so muddied. But they will see, and hide behind the oathbreakers, waiting for nightfall when people disperse into small groups.

Are the hotels really cancelling reservations? They're already struggling. What are they saying is their reasoning for cancelling reservations?

I've been checking mine daily since this talk began, as of this evening my reservation is still confirmed. Same with my flight, though I could see them screwing with flights closer to the date to make it harder for people who need more than a day to drive.

I took a trip back in July and they rebooked me a week before to a lesser hotel. Then I rebooked a different hotel in the same chain (Marriott) and they rebooked me the day before to the same lesser hotel. Basically, they were letting people book the nicer hotels, and if they didn't have enough reservations, they'd just rebook you to a different hotel they were keeping open.

I was pissed, but it did show that the hotel chains were trying to open if they had enough demand.
